Director / Editor / Producer / Videographer **Bus No. 8**

"I would highly recommend Robert and Bus No. 8 for any video project. He provided ongoing, weekly direction to a member of our program (a day program for survivors of traumatic brain injury). With Robert's consultation, the program member was able to make an excellent fundraising video. We showed the video at our inaugural fundraiser and exceeded our fundraising goal.

Robert is someone who not only has the vision and technical skills to produce an excellent video; he also has the teaching and "people" skills necessary to support a person facing significant challenges in making a highly successful piece of work." *March 6, 2012*
